

QUADRAFLEX™ VI SIGN STANDS

Cortina is proud to offer a full range of sign stands to meet your work zone signage needs. Our QuadraFlex™ VI sign stands, constructed of steel bases and aluminum mast and legs, deliver the quality you have come to rely on.

A QUADRAFLEX™ VI - DUAL SPRING

Our QuadraFlex™ product line allows deployment of roll-up signs at various heights between 14" and 6' from ground surface. The entire line is designed to withstand strong wind gusts. Models also feature telescopic legs with easy to use kick-release.

- Steel base and spring components specially coated to withstand 500 hours of salt spray.
- Aircraft aluminum alloy legs and uprights, with anti-skid rubber leg caps.
- Adjustable legs for stability on curbs or uneven terrain
- Dual-spring base with strong initial tension resists twisting and turning of sign in high wind gusts
- Kick-release legs simplify set-up
- One person deployment without tools
