Certificate of Crashworthiness
Category 1 Crashworthy Traffic Control Devices

Cortina Safety Products Group
10706 west Grand Avenue
Franklin Park, IL 60131

Identification Number: CONES123114

Number of Pages: 1

Description of Certified Items: Low mass, single piece traffic cones. Height is 18 in minimum and 36 in maximum. Weight is 20 lb maximum. Color is predominantly orange. Other colors may be used. Cone may have one or two white retroreflective bands.

Basis for Certification: Cortina Safety Products Group self-certifies these cones to Test Level 3 for NCHRP Report 350. The basis for self-certification is substantial compliance to a standard design with crashworthiness reported in Acceptance Letter WZ-03 "Crash Tested Work Zone Safety: Devices", dated August 28, 1998.

In addition, the traffic cones described above meet the requirements of the Manual on Uniform Traffic Control Devices issued by the Federal Highway Administration.

In the Spring of 2013, Cortina Safety Products Group acquired the product lines of Jackson Safety, Inc., in Fremont, MT., related to work zone safety and traffic control. Documents demonstrating such acquisition and describing the proper transfer of ownership can be obtained by writing to the address above.
